

**Problem**

A large metal fabricator and body supplier to a prominent automotive brand faced the challenge of evaluating its business performance.

**Solution**

We evaluated the Client's business performance using the **Business Diagnostics** tool in our **Expert Services — Discovery Driven** suite. Although the Client was in business for four decades, the diagnostics process was a first for it. The company derived valuable insights from our services which it used to upgrade its business.

**Customer Benefit**

The Client was able to increase its customer base by strengthening its core competence and capabilities.
